The Rev: Alexander Geddes was a Scotch
Roman Catholic Priest of great learning & some
eccentricity of conduct & opinion. He died in
the early part of the present century in London,
and his biography was written by Dr Mason Good.
His translation of the Bible is scarce & curious.
It consisted as far as published of two vols.
of translation - and one of notes. The 2 first
vols only are sent herewith. They can hardly
fail to interest the Biblical enquirer - especially
when it is remembered that he advocated a
mode of interpretation not unlike that of
some of the more moderate German rationalists.
This book is of very rare occurrence. I think
the last set I saw in a catalogue was
priced ten or fifteen dollars - that is to say
two or three English pounds.
